

# Deep Dave

Software Engineer Flutter & Android

deep.er015@gmail.com

+917405479074

Better team player as well as an awesome individual. Working on Native Android Mobile Application Development(Kotlin/Java) for 8+ years and Cross Platform Flutter Mobile Application(Dart) for the past 4 years.

Worked with startups and MNCs in several domains. Contributed to Fintech startup acquired by ICICI securities, Weather app by IBM with 100M+ installs, several projects for Battery industries – Warranty Management System, Unity cross-platform integration with Flutter, Community App with Video Streaming, Education fields such as E-Learning apps and School Management Systems, Social Media Platform, Crypto Currency Asset Management Apps.

## Professional Skills

- ✓ Great Analytical and Problem-Solving abilities
- ✓ Excellent Communication
- ✓ Converting one-line requirements into complete software solutions
- ✓ Great at working with multiple teams
- ✓ Staying Up to date with technologies of my interest
- ✓ Proficient Android Native Application Development Skills
- ✓ Flutter Application Development Skills for Cross-Platform Development
- ✓ Maximizing client success by applying UX/UI expertise

## Organizations I Contributed to

### **Avyukta Tech - November 2020 - Present (Founder)**

- Reviewed project specifications and designed technology solutions that met or exceeded performance expectations
- Taking a leadership role in the development team, guiding and mentoring junior developers, sharing best practices, and helping them grow in their roles
- Used coordination and planning skills to achieve results according to schedule
- Ensured new and legacy applications meet quality standards
- Collaborating with cross-functional teams for seamless integration

### **twoiq LLP - February 2019 to November 2020**

- Analyzed large and complex code bases
- Taking ownership of the entire app development lifecycle, from ideation and requirements gathering to deployment and maintenance. Ensuring the successful delivery of high-quality mobile applications
- Worked closely with product managers and UI or UX specialists to create stable code with core Android technologies
- Explored Flutter As a cross-platform application development framework

### **Maztechnosoft Pvt Ltd - February 2016 to February 2019**

- Continuously learning and enhancing skills as a developer
- Used RESTful API design to create and document client-server protocol and implemented the client side of the documented protocol.
- Designed, developed, modified and debugged programs.

## Educational Qualification

Bachelor Of Engineering in Computer Engineering from Ipcowala Institute of Engineering & Technology (GTU) 2011 to 2015 with 6.27 CGPA

PG Diploma - Advertising & Brand Management from Ahmedabad Management Association - California State University - January to June 2022

## Work Experience

Recently received the opportunity to work with a Glucometer BLE device. I also worked with USB Devices, Devices, Arduino, and Raspberry PI for Home Automation and Wi-Fi Locks.

### → **The Weather Channel - Native Android** [Android Link](#)
